THE NEWSLETTER OF THE AEROGUIDANCE SOCIETY

Editor: Ralph Jackson

Volume 7, Number 5

June, 1975

THE PREZ SEZ: Stan Bogaczyk

The Hodges site has been opened for flying activity. Twelve club members were on hand Saturday, June 14 to move remaining items from the Maine field and to get us settled into the new field. Parking and picnic areas have been cleared and benches and picnic tables are in place. The flying field surface is acceptable, but it will have to be worked on in the future to get more grass growing. All field maintenance activities have been transferred to the Hodges site. The parking areas can be soft during wet periods, so use good judgement when using them.

Sunday, June 29, has been designated as our official field opening fun-fly day. Come out and join the activity.

Note: Field rules governing the Hodges flying site were distributed at the June meeting. Obtain a copy from Mike Rushanski if you don't have one. Read and understand these rules and stay away from the no-flying zone to insure safety and to avoid flying near our neighbor's property.

1975 AGS Field Mowing List: Bob Arnold

It is the responsibility of every member to mow the field at least once during the year. The mowing is done once a week between Thursday and noon Saturday. The dates shown indicate the Saturday on which the mowing should be completed. The tractor and mower are kept in the barn at the Hodges site. Since gasoline cannot be safely stored there, you are to bring gasoline when it is your turn to mow. In case of tractor or mower difficulties, call me at home no later than 10 pm (862-9491). Operating instructions are on the tractor hood.

June 28--Stephens, Leaf

July 5--McLain, Arnold

12--No mowing (pattern contest)

19--Frate, Waterman

26--Riegal, Jennings

Aug. 2--Seitz, Fisher
