The following letter was reprinted from the Plane Prop Wash newsletter of the Syracuse Thunderbirds Aero Radio Society.

Dear Mr. Model,

We received your letter and have tried to comply with your wishes. I must say that we found it a bit confusing at times, but we did our best and hope that we've made you happy.

The Spinners were unavailable, so we have sent you a small local group. The monokote you ordered was a mystery to all of us. We have sent a mohair coat. We didn't send the monokote iron because it can only be dry cleaned. Hope size 20 is all right on the super shoe; of course, we sent two. We didn't have green solar film, but we did have Kodachrome 11 colored film. As regards the dope and dope thinner, we are lending you two elves, one regular and one fat. The Super Chipmunk - we sent you the largest one available and have included a cage, although we realize you didn't request it. Push Rod - assume you meant "Pocket Fisherman". The large red plastic bucket is to keep snappers in, the elves thought it would work better than a net. The quick link entitles you to one free call on the "hot Line", certificate enclosed. Now really - the request for hot stuff, that is not in our line.

Merry Christmas,

S. Claus
