

THE CONNECTOR

THE NEWSLETTER OF THE AEROGUIDANCE SOCIETY

Editor: Ralph Jackson

Volume 10, Number 10

May, 1977

THE PREZ SEZ: Ron Grodevant

Project night certainly turned into a great success, at least as far as attendance was concerned. I estimate that well over two hundred persons attended the event, and certainly indicates the possibility of this becoming an annual event. Perhaps the show can become even larger in scope and bring revenue to the club. I think all of us owe thanks to Bob Noll for originating the idea and for carrying it through so capably. I think he did a super job.

It has been brought to our attention that at least one member of the club has been observed speeding up the hill to our new field. Mrs. Allen has asked that we slow down to eliminate danger to her grandchildren, and to hold down the dust. I intend to have the road posted at 5 MPH. speed, especially near the Allen houses. In the meantime please keep your speed down.

A work party has been planned for Saturday, May 14, with Sunday being the rain date. Bring your rakes, shovels, hammer and nails and be prepared for a morning's work. Bring your planes too. I'm sure we'll be able to fly later in the day. As a reminder I'd like to state that the club will not be responsible for your tools and equipment. If you can't afford to damage them--don't bring-um.

Meeting program for Tuesday, May 10, will be provided by Larry Taylor who will discuss his Taube, and show slides of the WRAMS show. Hope to see you there.

We will have a special meeting on Wednesday, May 25, at 6 pm at the new field, weather permitting. Bring your planes for flying. The program will be a Flight Clinic. Minimum business, maximum fun!!!

AEROGUIDANCE SOCIETY, INC.
