

## THE CONNECTOR

### THE NEWS LETTER OF THE AEROGUIDANCE SOCIETY

Volume 14, Number 4 April 1981

Editor: Don Leaf  
3627 Leonard Dr.  
Endwell, N.Y. 13760 754-4156

President - Ralph Jackson  
Vice President - Bob Jennings

Secretary - Dave Houser  
Treasurer - Jerry Skreckoski

PREZ SEZ: Reports from members who flew at the field last week-end, indicate that the road and field are dry enough for use. The field surface is quite rough, but usable for a plane with rugged landing gear.

NEXT MEETING: April 14, 7:30 p.m. at NYSE&G; for the program, Don Godfrey and Ralph Jackson will show us their new quarter-scale aircraft. Don recently completed his 12 foot E-25 and Ralph a Proctor Nieuport 28. They gave a program on these aircraft at the Lackawanna Aero Modellers (Clarks Summit, Pa.) Banquet about 2 weeks ago.

BOARD MEETING: No meeting this month.

TRACTOR: is back at BOCES for repair of the cracked block and head. Apparently there was anti-freeze in the tractor when BOCES returned it to us last year. At any rate, be sure to use a 50-50 anti-freeze/water mixture if you ever have to replenish the coolant.

NEW MEMBERS: Steve Doris, RD #2 Box 208E, Endicott, N. Y. 13760 -- 862-9257, Jr. Associate; Clay E. Caldwell, 333 Main St., Owego, N. Y. 13827 -- 687-1990, Associate; Welcome to the A.G.S., fellows.

DUES: for the second half of fiscal '81; all regular members -- \$20.00 due in April. Make checks payable to: Aeroguidance Society, & send to Jerry Skreckoski, 10 Brown Lane, Appalachin, N. Y. 13732, or pay at the meeting.

BRIEFS: Dick Allen has been flying with his new Ace Silver Seven Transmitter (with exponential control) and likes it very much. Dick has found one bug; the servo direction reversal switches make intermittent contact; Dick has wired around these switches and is looking for different switches with wiping instead of butt contacts.

The annual banquet was very enjoyable with Ron Grodevant as Master of Ceremonies and Bob Noll and Lanny Noll planning and officiating at the A.G.S. "olympics". Also, someone put a lot of work into the "roasting" trophies. A big thanks to Bob Jennings who made the whole thing possible!

After the April glider meet 2 Sundays ago, I watched Bill Underkofle and Dick Allen fly their Batwings. In the air, they look like something that shouldn't fly! The sky conditions made it hard to distinguish colors, so that it was hard to tell if the craft were right-side up. Anyway, it was enjoyable to watch some flying after a long winter!

Bill Johnson, who puts on the glider meets each month, has a young son, Billy, who is becoming a good glider flyer. It seems that Billy cracked-up his glider at a meet last year and John Grigg (now AMA Prez.) gave Billy one of his gliders right on the spot!

See you soon at the field - ED.

FOR SALE:

Dick Allen 785-1641

Pro-Line Servos (negative pulse)	Each
PL - 3 (D & R mechanics)	\$15
PL - 15 (Kraft 15 II mechanics)	20
"Y" cables (Deans Connectors)	\$ 2
Switch harness (Deans Connectors)	4
Servo Trays for Kraft 10's or PL - 3's	1.50
